That's fine with me Rich.

Thanks for working with me on this.

I have always appreciated your support and put you at the top of my list for ensuring that you get paid. I have made payments to you even if it meant my bills went unpaid.

After the crash I had to double the number of servers and cash flow dropped. My hosting bill is now over 4K per month. I had to pay 3K to a systems engineer to design the new system. I am getting a handle on things and will ensure that you are paid asap.

So far as complaints from members of Dave's sites, I would say that those complaining are 99% bullshit. According to my records, over 90% of commission owed is to just 21 people and I communicate with all of them regularly. I have paid most of them and some chose to upgrade versus receiving payments. People like to bitch and complain and talk about what they have heard versus reality of personal experience. I make sure that my best supporters, like yourself, have a direct line to me and always get the truth and my best efforts on their behalf. Those who publicly whine and complain go to the bottom of the list.

I could make more money and pay more bills on time if I didn't tell the truth and sold get rich quick garbage but I won't do that. If that is what it takes to succeed in the safelist world, then I will just go back to consulting.

Hope you understand. We have spoken enough times that I hope you know what is in my heart and what I am trying to do. I just want to help people succeed in a tough time.

I'm PISSED!!!

The **ONLY** thing any business owner should be doing on payday is **MAKING Payments**. You have lost the TRUST you so like to preach about because YOUR BUSINESS DEPENDS ON PEOPLE MAKING MONEY FOR YOU, but you DON'T PAY THEM.

I'm pissed, but then I have to listen to Dave Mosher bitching about people bitching to HIM. We are getting SO many scam complaints from many of our 550,000 safelist subscribers because YOU are not paying them.

Dave and I are good friends and partners. I admin over 200 of his sites. In respect for me, **Dave has held off**, but if I give him the word he will ban ALL your sites from every one of his 300+ safelists, all 19 supernetworks, and all the solo blasters. The scripts are written and staged to do it - should take about 2 hours if we pull the trigger. Dave is one of the most respected Mega-safelist owners in the industry, but he takes this seriously - the fact that he was even considering it puts you on very shaky ground. You DON'T want to be in the company of others who have made the banned list because many other big safelist owners update THEIR lists following his lead.

I LIKE you, what you are doing with YSA and the whole program. THAT's why I have invested SO MUCH MONEY with you. I have not seen the guaranteed site partner returns, and in fact my partner site **100percentmailer** has been down for WEEKS with **Working to Restore Service**.

Can we fix this payment thing, PLEASE?

Rich
