Matthew Graves is using samcart for Web's Best Marketing Ltd. He uses this platform to collect payments for his affiliate programs but he refuses to pay commissions due to his affiliates. He owes me over \$1200 USD. I have filed a complaint with the FTC.

I am only one of hundreds he has scammed.

I've invested a ton of money in Founder's memberships, Site Partnerships, Premium Lifetime Pass, launches, and other upgrades with Matthew Graves, and have been burned. I've earned literally THOUSANDS of dollars in commissions but it is like pulling teeth to get paid.

I have consistently been in the top 20 on leader boards for launches over the past 3 years and have made HIM a ton of money. He currently owes me over \$1200 in back commissions and does not respond to emails, invoices, and support requests to resolve this issue. I have even gotten him to agree to a weekly payment plan, but he has never made a single payment per our agreement.

He has been banned from Paypal for years. He deserves to be driven out of business, and the quickest way to do that is to cut off his ability to collect payments from unsuspecting victims.

His programs include Your Success Advantage, Your Viral Network Mailers, and Supercharged Solo Ads. I can provide a complete list of websites.

Here are his addresses, phone number, and emails.
