### Today's Updates

- [Safelist](#) Feature: MyTop10
- [Worldprofit](#) Workshop - canceled this week
- [Newsletter](#) Archive

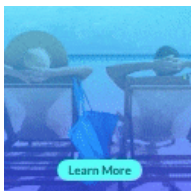

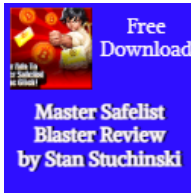

### [Safelist](#) Feature: Member Tools

Most of you are using [safelists](#) owned by Dave Mosher. I talk about them a lot: there are over 300+ sites. (*Dave Mosher Presents* is in the header graphics). Over half of these use Dave's proprietary [safelist](#) script, which means that they all have the same features and functions.

If you want to join Dave's sites, I recommend joining from the **Free Member Promo Code** pages of [Advertising Blowout](#), where you can find a unique promo code for free ad packs. You get an ad-pack for joining, and another ad-pack when you redeem promo code [newmember](#).

[MemberTools](#) is located on the main menu and contains the following items:

## 100% Direct Pay Commissions. [Automatic Signups & Traffic](#)

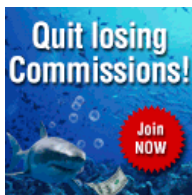

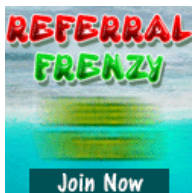

- My Profile
  - **IMPORTANT:** include your **payout methods** so you can receive commissions (\$20 minimum distribution).
  - **Add your PICTURE** (a business quality photo, **not an avatar**, and most definitely **not your driver's license or government issued ID**)
- My Favorites
  - Where you can save your go-to sites while surfing
- Account Ledger
  - Listings of monthly ad packs received and earned commissions.
  - **TIP: You must login at least once per month to receive monthly ad packs.**
- Campaign Ledger
  - The **Completed Ad Campaign Ledger** shows **final views/clicks counts**.
  - **NOTE:** if your ad is not completed, that means that it is **still in rotation** and could still be receiving views and potentially clicks
  - To see stats for all ads, go to **Setup Advertising** for each ad type.
- Referral Tools - Promo Tools & Stats
  - Here is where you find your **Referral URLs** and **Splashpages**. Use these to promote THIS SITE to get referrals. - **I recommend using a link cloaker/shortener**
  - Find **banner graphics** for 468x60 Banners, 125x125 Buttons, 600x300 Login Ads, and sometimes other formats
  - **Email swipes** for your own list, **safelists** or list building sites that use double opt-in subscribers only - do not send to purchased bulk email lists or "blasters")
  - **Popup Code** - if you have your own website
  - **List of YOUR REFERRALS** on this site.(yeah!)
- My Top 10
  - see below
- Affiliate Builder
  - Also called **Downline Builder**
  - If you join these sites and update with **YOUR referral link from that site, when YOUR REFERRALS join sites in Affiliate Builder** that you updated, **they join UNDER YOU as referrals to THAT SITE**
  - Add Your **Referral Links** to the Recommended TAE's, Viral Mailers, List Builders, Traffic Exchanges and Other Programs.
  - Be sure to Only Use the **Full URL...**  
**My referral link:**  
<https://othersites.com/index.php?referid=userid>  
then click 'update'.
- Splashpage Builder
  - Fill-in-the-blanks page builder - you can make it a capture page by including the **HTML Form Code from your autoresponder**
  - Each page has a unique URL. Promote using URL supplied - **I recommend using a link cloaker/shortener**
  - Number available is based on membership level, ie Elite gets 15
  - Example:  
<https://10xworldsafelist.com/s/35>
- Personal Builder
  - Creates a page of **My Top Converting Sites!**
  - Some default programs are listed. Add only the **affiliate ID** and **not the full Referral URL**
  - You can **add your own programs**, number allowed depends on member level
  - Your changes will not show up immediately - **they must be approved by the admin**, which usually happens once per day during business hours.
  - **I do not recommend sending this page** on Solo ads or Credit Mails. **Send to YOUR LIST**, or use after signature line
  - Example:  
<https://10xworldsafelist.com/programs/richardmoyer>

### **Safelist Feature: MyTop10 to post Button Ads for Your Favorite Programs**

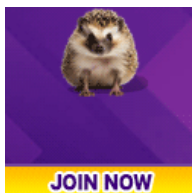

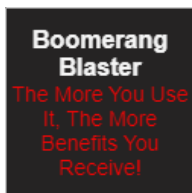

#### Today I'm going to highlight My Top 10

With this page you can **create your own splash page to promote your favorite programs**. You can add up to 10 of your favorite programs. **Please Only post 125x125px banner images.**

**Note:** If you don't fill all 10 fields, then **the system will pick and fill the empty**

### New Traffic Sites to Join

**fields from your 125x125 banner ads.** If you haven't added any 125x125 banner ads then the plugin will chooses random banners. We highly recommended to fill up all 10 fields.

At the top of the page, you will find **your unique URL** used to promote this page.

**I do not recommend sending this page** on Solo ads or Credit Mails. You only have 8 seconds to show a page, and pages created using **MyTop10** are too busy. ALWAYS promote capture pages instead.

I ideal use of **MyTop10** pages is in a **TEXTLINK**, especially if you have referrals, because your referrals **at login see a page exclusively containing Textlinks posted by YOU**, their sponsor.

The **URL for MyTop10** is also a good candidate to post **after your signature line in communications with subscribers on your LIST**, or at the end of **autoresponder messages and broadcasts**.

This example is pulling from my posted button ads. I have not entered any on this page.

**TIP: NEVER** place URLs in the ad body of Solo Ads or Credit Mails.

**TIP:** There is a MyTop10 page available on EACH of Dave's safelist script sites, each with a unique URL. Need another **MyTop10** page? Join another safelist.

### Newsletter Archive

Do you like these newsletters?

I am making some changes. The newsletters I have posted looked fine as a single column, but on the blog site, the dual column format is terrible. I have re-posted all the past dual column newsletters as PDF files, and all in

the future. You will see in the blog post only a link to open the PDF file.

Find an archive of recent newsletters on my  
blog, [LifeBalanceB2B.com](http://LifeBalanceB2B.com) under heading Newsletters
