Marty Petrizzo Launches a New Site Extraordinary Solos 2

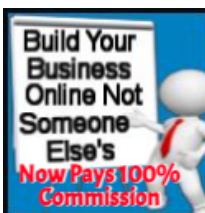

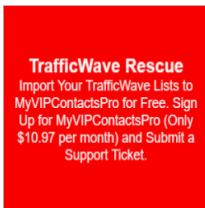

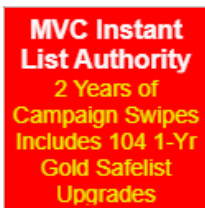

I've known Marty for years, as a sponsor and fellow safelist owner. If you are looking for QUALITY TRAFFIC, her Solo Ads are the way to go.

Marty's site launches usually EXPLODE, so get in early.

Check out [Extraordinary Solos 2](#)

Personally, I have made **LOTS OF MONEY** promoting site launches, and have gotten **TONS of REFERRALS** that have become **LOYAL FOLLOWERS** and **SUBSCRIBERS**

Here are some site launch tips:

- As with any launch, **pay attention to the OTO's**. This is where you get the **best lifetime or yearly deals** that not only save you money, but give you the **best TRAFFIC BONUSES**.
- **Upgrade to the highest level** you can afford to get the **most traffic and highest commissions**
- Don't just promote using the provided ad copy and subject lines. **Use AI to create your unique drafts**
- As always, **put a landing page in front** of your affiliate links.
- Offer generous and unique bonuses.
- **Follow up** with downlines.

TIP: I want to get promoting as soon as possible so I start out by **creating just a tracker for my affiliate ID**, and use that in my early promotions **until I have time to create the capture page** and bonus pages. Once those pages are created and tested, I simply **change the redirect of the tracker to the capture page**.

What's The Difference in Mailers?

When you are on a Dave Mosher safelist, the menu shows three types of mailers

Send Mail is the **credit mailer**. You must have available credits to use this mailer. If you don't have enough credits to send to all the members, it is OK to put a lower number. If the checkbox appears **Send Free To My x Downline Members**, always check it. Referrals do not consume credits when checked.

List Mailer sends to all members who have joined this safelist **AFTER YOU**. As the site grows, so does your List Mailer reach.

Mail Downline sends mail only to your referrals.
