### **Types of [Safelists](#) by Dave Mosher.**

Dave Mosher has two types of [safelist](#)/traffic exchange scripts: the **traditional [safelist](#)**, and **Instant Commission** scripts. Each has some unique features, and each has been standardized so that all sites of that type have the same features.

The biggest difference is the compensation structure.

### **Traditional [Safelist](#)**

- Admin collects and holds funds until minimum is reached
- Commission is a percentage of every total purchase
  - Free earn 10%
  - Silver earn 20%
  - Gold earn 30%
  - VIP earn 40%
  - Elite earn 50%
- Ad duration

- Number of views or clicks

## Instant Commission

- Member is paid directly for earned commission
- Referrals commissions passed up to admin
- Commission is percentage of total commission occurrences.
  - Free and Gold pass up 1, earn 100% of 2nd
  - Platinum pass up 1, earn 100% of next 3
  - Elite no pass-ups, earn 100% of all
- Ad duration
  - 30 or 365 days

There is a third class of safelists, **Blasters**. These are paid-only sites with limited standard features.

## Why Use a Splash Page?

A splash page should **load quickly** and is ideal for traffic exchanges and surf sites that only give you 8 seconds to display your page.

**If a URL cannot pass the framebreaker test** (like Clickbank, JVZoo, Warrior+), or if getting "**too many redirects**", front it with a one-button splashpage that redirects to that URL.

A Splashpage can be used to "**pre-qualify**" prospects before

they fill out a capture page. Gives you a cleaner list.
