**Should You Fill Out Affiliate Builders** (aka Referral Builders, Downline Builders)?

**Affiliate Builders**, theoretically, should help you build a massive list of referrals on each safelist, by giving your referrals the opportunity to **join the sites in the Affiliate Builder UNDER YOU.**

This assumes you **PROMder** with YOUR Affiliate ID for the site. **OTE the safelist** where the **Affiliate Builder** resides, you **get REFERRALS** to sign up under you, and **THOSE REFERRALS join sites** that YOU have joined, and updated the **Affiliate Buil** If you **do not PROMOTE** the site, and **have no referrals** on that site, it is a **waste of time to fill out the Affiliate Builder** because **ONLY YOUR REFERRALS WILL SEE IT.**

If you join many safelists,

- it's a lot of work to fill out the **Affiliate Builder.**
  - Many Affiliate Builders have 100 or more entries
- requires **record keeping** to store the site name, referral URL, userid, and password, and
- there are **few tools** to automate this task for you.

**My observation:**

- Very few people take the time to record their affiliate IDs, so they have to open each site to retrieve it
- Because it is a tedious task, very few people make the effort to fill in referral builders.

Here's one tool I've used, [Referral Builder Elite](#)

---

### New Traffic Sites to Join

You can purchase a 1 Year Membership at an Affordable Price of **\$57.00**

That's 1 year access Plus All the Monthly Advertising!

- 16,000 Surf Credits EVERY MONTH!
- 100,000 Mailing Credits EVERY MONTH!
- 140,000 Banners/Texts EVERY MONTH!

You Also Get 3 Banners and Texts ON Site With Unlimited Views.

### **EARN 40% Commissions By Promoting!**

Earn Commissions From People Joining Under You IN the [Referral Builder Elite](#) extraordinary list of sites!

### **My Referral Builder Elite review points**

- It requires hours of work to join, affirm, and add affiliate ID, userid, and passwords
- You must update **Referral Builder Elite** regularly to include new sites if you join many other sites, then synch all the sites for the new entries
- This works very well for defined sites within the **Referral Builder Elite** tool
- Very few of Dave Mosher's 300sites are included

### **What I Do**

- Besides **Referral Builder Elite**, I record my affiliate IDs in a Google Sheets spreadsheet (it's free), where I can quickly search (Ctrl f) and copy/paste

- Rather than updating the hundreds of entries in individual safelists, I update the **Affiliate Builder** in only ONE place: [Advertising Blowout](#)
  - I promote [Advertising Blowout](#) as a source of **FREE PROMO CODES for over 400 sites** (most belong to Dave Mosher, but there are also many from other admins)
  - I only have **ONE PLACE** to update my affiliate URLs
  - I direct people to **JOIN THE SAFELIST from the Free Member Promo Codes Pages** (currently 5 pages of sites to join)
  - People get a **free ad/credit pack just for joining**,
    - an **ad/credit pack** for redeeming promo code **newmember**, and
    - another **ad/credit pack** for redeeming the **exclusive promo code** from the Advertising Blowout promo code pages.
  - There are 4 other levels of promo codes that can be purchased. These are affordable upgrades but each level provides **THOUSANDS OF DOLLARS WORTH** of free advertising.
    - As an Elite Member I earn 50% commissions when my referrals upgrade.

HINT: if you promote **Advertising Blowout**, you will get referrals at least for **Advertising Blowout**, but also for EACH site in the Affiliate Builder you have joined, and updated in the Affiliate Builder with YOUR referral URL for that site.

### **What is the Difference between Referral ID and Referral URL?**

When an Affiliate Builder asks for a **Referral URL**, they are asking for the complete URL, **including https://**. For example:

<https://advertisingblowout.com/index.php?referid=richardmoyer>

A **Referral ID** is simply the **ID portion of the Referral URL** (in bold above)

### **What happens if you do not complete the Affiliate Builder?**

When your referrals go to the **Affiliate Builder** to join a site, but you, as their sponsor, **did not fill out the Affiliate Builder with YOUR referral info**, the **referral ID used for your referrals to join that site is the default**.

The **default is YOUR SPONSOR's ID**, or if your sponsor has not filled out the entry, **the site owner's affiliate ID**.

It is important to supply the correct format when filling out the Affiliate Builder, otherwise, it will use the default.

## Do You Need to Fill Out Every Affiliate Builder for Every Safelist?

IMHO, no. Most of Dave Mosher's sites have hundreds of sites listed in the Affiliate Builder. It is **SO much work**, and it consumes so much **time that you can be spending JOINING NEW SITES, Redeeming PROMO CODES, and submitting actual PROMOTIONS.**

In my experience, the rewards (actual referrals that joined your downline) are not commensurate with the time and effort.

### A BETTER STRATEGY

Join [Advertising Blowout](#) for free.

As you join sites from the **Affiliate Builder page of ABO**, update with **your Referral URL IN THIS ONE PLACE ONLY**, not on individual sites.

Don't forget to redeem promo code **newmember**, and also grab the exclusive promo code from the **Free Member Promo Codes** pages

**TIP:** There are five or more pages of promo codes on each ABO membership level. Join the site from the ABO Affiliate Builder page, the on the **Free Member Promo Codes** pages, **use Ctrl f** on each page until you locate the site by name.

### **NOW, you can PROMOTE Advertising Blowout to Get [Safelist Referrals](#)**

- I recommend offering **Free Promo Codes** on a capture page to build your list.
  - After [signup](#) to your list, redirect to your ABO Referral URL
  - When you get a new subscriber, set your first message (Day 0) to instruct them as

above:

- join sites from Affiliate Builder,
- redeem promo code **newmember**, and
- redeem the exclusive promo code from the **Free Member Promo Codes** pages

- Offer **Free Promo Codes** on all ThankYou Pages
- Post a **PS** after your signature line on emails to your subscribers. Sample PS:  
==> PS. Get Hundreds of Promo Codes for Free Credits and Ads  
*yourCapturePageURL.com*
- Include a **PS** after your signature line

**TIP:** Never include URLs in any safelist credit mails or solo ads unless told explicitly to include them (ie on ViralURL, Viralhosts, ViralPLR)
