Turn Any Program into a Nearly Passive Income

**Isn't It About Time You Become A Successful Online Entrepreneur?
With The Right Automated Systems, Tools and Expertise, You Can!**

I've been using the various component products by Frank Bauer and Clinton Clark for years. In fact, the mailers have delivered the highest CTR's consistently.

You know that I am heavily into automation. I want the tools that I use to **reduce the amount of time** that I need to spend doing the menial tasks **so I can concentrate on the**

creative aspects, this newsletter being one of them.

Frank Bauer and Clinton Clark have put all this together in an amazing package called the **M3 Inner Circle**. Jeff Aman clued me into the **M3 Inner Circle bundle**, and ended up saving me hundreds of dollars per year.

The automation piece of this was the next piece that I needed to engage to accomplish my goals:

- automation of my submissions to the traffic sources
- that have available traffic slots for me to send
- where I have sufficient credits to send my ads

TrafficZipper is the key to automation.

TrafficZipper allows me to enter my ads and match them up with the high CTR traffic sources, and **TrafficZipper** then checks those traffic sources to see if I have the time slots to send, and if I have the time to send, and if I have available credits on that source to send my ads out.

TrafficZipper is like a huge rotator that just goes through my list of ads and keeps checking the traffic sources, whether the ads slots are available, and the credits on those traffic sources are available. It just goes and sends it for me, **completely Set-N-Forget**. All this with full tracking so I can tell what ads are being sent and more importantly what which ads are delivering conversions.

TrafficZipper allows me to select the specific traffic sources per ad, for instance, I select just the **CHIPs** sites for **BigDogs** ads, but for other ads, exclude them from using the **CHIPs** sites, because I have specific days of the week I schedule my **CHIPs** sites with **BigDogs** ads (purchase [Secrets of the Big Dogs](#) ebook to understand why). I know that the **CHIPs** have the resources when I need them if other sites in the **TrafficZipper** rotator are not using them. I only had to go through that thought process ONCE when setting up the ads, and not week after week.

**Let's Get To The Fun Stuff! The M3 Inner Circle.
Automated Traffic And Upgraded Memberships In The Top Listbuilders All Rolled
Into ONE.**

Important Instructions To Follow:

[Go To This Link](#) And **Watch The Webinar**

Go To The Form on that page and Sign Up for the **Traffic Deals Newsletter**

If already a subscriber, then [go to THIS PAGE](#) And Pick Up the **M3 Inner Circle Bundle** Before The Price Rises.

JitBit Autotext

This tiny utility is a **Text Expander** for Windows. You can assign acronyms to frequently used text snippets and **AutoText** will auto-type a snippet when you type the acronym.

George has a [nice video](#) that shows generically how to use this amazing tool.

I use this **ABSOLUTELY EVERY DAY**, like every couple **MINUTES!!!** I would be absolutely LOST without it, because I have built so many of my processes to take advantage of the shortcuts I've created.

Here is an example how my [standard shortcuts](#) apply to project FreeListMonster, code flm

Shortcut + Project	Description	Example Output
a- + flm	Affiliate URL	https://www.freelistmonster.com/?u=130&js=video
b- + flm	Banner URL 468x60	https://www.trker.com/banner/41490.jpg
f- + flm	Button URL 125x125	https://www.trker.com/banner/41491.jpg

h- + flm	Login Ad 600x300	https://www.trker.com/banner/41492.jpg
hh + flm	Login Ad Embed Code	
g- + flm	Name	FreeListMonster
gu + flm	Target URL (capture page)	https://trk.webcastsource.com/freelistmonster
t- + flm	Subject	A New Concept in List Building that PAYS YOU
s- + flm	Text Ad Copy	non-formatted text with line breaks
sh + flm	HTML Ad Copy	HTML code of formatted ad

So, when I start a new project, I create new shortcut keywords in Jitbit like in the table above. Everything I need to enter the ad components on a safelist is **just 5 characters away. No having to keep Affiliate Tools open** on the site you are promoting. **No flipping screens back and forth to do copy/paste.**

To submit a Banner the keystrokes necessary would be

Banner Image URL

Banner Target URL

These would expand to the proper URLs. Click SUBMIT.

To submit a Textlink the keystrokes necessary would be

Textlink Subject

Textlink Target URL

These would expand to the proper subject and URL. Click SUBMIT.

To submit a Credit Mail the keystrokes necessary would be

Subject	<input type="text" value="b-flm"/>
Target URL	<input type="text" value="guflm"/>
Ad Body	<input type="text" value="s-flm"/>
Credits to Use	<input type="text" value="500"/>

These would expand to the proper subject, ad body, and URL. Click SUBMIT.

This saves **SO MUCH TIME**. Time you can use to **learn more**, **join more sites**, **submit more ads**, and do **CREATIVE WORK** like building capture pages. writing autoresponder messages, following up with subscribers (you know, **BUILDING YOUR LIST**, and that **NURTURING** thing to **BUILD RAPPORT**, get them to **KNOW**, **LIKE**, and **TRUST** because subscribers **BUY** from sponsors **THEY TRUST**).

I also have many "code snippets" I use all the time that save me typing. Some ideas you might adopt:

Email and Safelist help

- my gmail addresses (I have more than one)
- my name, nickname
- my picture URL for my profile
- my webpage address for my profile
- my Youtube Channel for my profile
- Code to insert a short bio "about me" paragraph in my profile

Webpage building help

- Code to add an "ad bar" to a webpage
- Code to add an "exit-pop" to a webpage
- Code to add a background graphic to a webpage
- Code to add a "Click Here" button to a webpage
- Code to add a clickable image to a webpage

Newsletter help

- Newsletter production: Title
- Newsletter production: HTML version

- Newsletter production: Text version
- Unsubscribe message for my newsletter
- Copyright message for my newsletter
- Affiliate warning message for my newsletter

You can create shortcuts for just about anything you type frequently. They can be static, old favorites, ready to use, or dynamic, create on the fly as needed. Think about those things you type over and over. They are FAST.

FREE FOR PERSONAL USE. I feel that even if you had to pay for it, if it's a tool that you're gonna use **absolutely every day** and it's **essential to your business**, just pull out your wallet and buy it. It's not gonna break the bank. It's less than 23 bucks for a year for a business license, and less than \$10 per year to renew.
