A Helpful ChatGPT Prompt to Make Pretty HTML Ad Copy

This is something very cool that George Kosch demonstrated on [today's workshop](#) (about 20:00:00 on the Youtube recording).

Do you have a plain-jane text ad copy you want to create using HTML formatting to make it stand out and get more people to click your link?

Here goes: (type this into your ChatGPT prompt)

can you reformat this text ad in html, using css to highlight what you think should stand out better. Make a large red button with the text 'click the link'. Suggest a title as the top line, bold and centered. Use the following text for the ad.

P.S. We have been in business over 30 years and that CAN'T BE FAKED!

Check out the result:

<https://spahoconsulting.net/websites/wpexample.html>

Paste your HTML code into your editor using the SOURCE button. Add the subject line and your URL, then submit.

TIP: If you use this technique for a **Login Ad** on the Worldprofit safelists (not **Full-page Login Ad** that is simply a URL), be sure to include the URL in ad body (ie. the red button you added)

Worldprofit Safelists Now Allow Conversion of Credits for Solo Ads

George has completely written the scripts for all 18 safelists. All "dead" ads and inactive members have been removed, making the sites much faster and the ad queues much shorter.

George is continually working to improve these sites, add specials, credits for ads, etc.

These sites are great for promoting **YOUR affiliate programs**.

CAVEAT: Don't promote Worldprofit products, services, or safelists on these sites because most members who would see these ads are already Associates, Silver, or PlatinumVIP members.
