MyIMPartners Founder + AI Suite Extended til Dec 8th

I cannot stress enough what a GREAT DEAL this is!

Lifetime Unlimited Autoresponder, Marketing Tools, AI Suite.

Ends December 8th and will not be extended again!

GET FOUNDER

GET Optional Co-OP to GET GUARANTEED 5 PAID REFERRALS

Founders Earn 50% Commission so earnings with the Co-Op alone would start from \$37 per month to \$74 per month.

ROI for a \$200 investment (Founder + Co-Op) would be 3 to 6 months. Promote it, and get more than 5 referrals, this is a **NO BRAINER**.

Don't have \$200? Charge it on your CREDIT CARD (not debit account) and actually **PAY for those charges NEXT YEAR**.

Since the **TRANSACTION would be completed in 2024**, it would be a **legitimate BUSINESS EXPENSE** that can **REDUCE THIS YEARS TAX LIABILITY** due on April 15th, 2025, or **INCREASE YOUR TAX REFUND**.

Autoresponder subscribers are historically LONG TERM.

I will try to post these to my newsletter daily. If you join from my newsletter link, you will **MY REFERRAL**

EasyCommissionFunnel SendShark Caveat

I started out with the **LeadsLeap** version, but recent changes now require **SendShark** (but other integrations are available, for example, GetResponse, Aweber).

Jeff has negotiated an **AMAZING DEAL** with Joel Therien for a 10,000 subscriber, **custom version of SendShark** for only \$25 per month. Get this deal here.

<https://sendshark.com/launch/ecfunnel?id=webcastsource>

The integration with **SendShark** provides the ability to **import D-F-Y messages** that only require you to add your signature line and picture to your emails.

Be sure to

- **IMPORT your messages FIRST, THEN**
 - Set up ECF with the **SendShark API** and
 - **DON'T FORGET the ACTIONS**
-

Did You Know....

Jeff Aman's Easy Commission Funnel is free to join, but includes THESE income streams:

- LeadsLeap
- SendShark
- The Click Engine
- Internet Income System (IIS)
- M3 Inner Circle
- TrafficZest
- GotBackup

DON'T EAT THE WHOLE ELEPHANT!

You know the old saying, "How do you eat an elephant?" The answer... **ONE BITE AT A TIME.**

Don't get intimidated by all these powerful systems!

I recommend that you **JOIN THEM ALL**, almost all as a **FREE MEMBER**.

The **ONLY** system with **OUT OF POCKET COSTS** that I consider **MANDATORY** is [SendShark](#).

Face it, ANY list building system requires an autoresponder, and Jeff Aman has negotiated a **FANTASTIC PRICE** with GVO owner Joel Therien for a full-function autoresponder, landing page builder, and 10,000 subscriber capacity for **only \$25 per month**.

You might as well **start out RIGHT** from the very beginning, and Jeff even provides a **D-F-Y campaign** that can be imported in seconds, and it takes only a few minutes to customize these 7 messages with your name and email. You can even add your **OWN** messages to this stream to further engage your subscribers.

SendShark is completely integrated with the **Easy Commission Funnel** system so your leads and subscribers are in synch.

Weird Hidden Characters with ChatGPT

I frequently use AI to rewrite and recycle some of my old ad copy. Hey, change it up, make it fresh.

I generated the new ad copy, pasted it into my "signature" template that I use for all my HTML formatted ads, and saved it into each HTML field in [Lightning Autofill](#) (my automation software) and [JitBit Autotext](#) (keyboard shortcut software). I pasted the plain text into the text fields in Lightning Autotext and Jitbit, then saved the profiles.

Whenever I would submit an HTML ad using that ad copy, the solo or credit mail submission would fail with a **500 error** (the safelist could not handle whatever you just did, so it croaked). I was getting the same result when submitting the text version of the ad copy. When I looked at it, **the ad copy and HTML code LOOKED fine.**

I did a Google search for a [text cleaner](#), and set it up to remove only any non-ASCII characters, then tested it by pasting the "cleaned" ad copy into a solo ad. **IT WORKED!**

I've seen it before that ChatGPT likes to use "graphic bullets" like stars or rocket ships, but I remove them because I know **safelists DO NOT USUALLY LIKE THEM.** I also find these characters in emails by Jeff Aman and Frank Salinas, so beware, if you are duplicating their ad copy.

Apparently, there were **OTHER hidden, or non-display characters** inserted too. I did the same cleaning procedure with the HTML AI generated code, and it also worked.

TIP: If experiencing 500 errors **after YOU submit an ad**, try this cleaning procedure. There are many other reasons for 500 errors, but if the timing is right, try cleaning your ad copy
